

Total Revenue for Energy Sector Graph

Total Revenue Energy, Oil & Gas
Exploration & Production

Total Revenue Energy ,Oil & Gas Equipment & Services

Does the Equipment & Services have higher Total revenue than Exploration & Production in Oil & Gas Subsectors?

Above is Histogram that shows comparison between two subsectors in Energy sector:
The comparison is between the Oil & Gas sub sectors for Exploration & Production and Equipment & Services , across 4 years and across companies.

Both distributions are positively skewed, Right skewed where the mean is higher than the median

The Mean of Equipment & Services is \$ 20,575,166,667 while Exploration & Production \$7,539,857,623
Both sectors have high values of total revenue but Equipment & Services scored the maximum revenue with value of \$ 32,870,000,000. on the other hand, Exploration & Production maximum was \$ 20,638,000,000.

Moreover, the Minimum revenue of Equipment & Services is \$ 9,841,000,000 while it's only \$ 1,181,704,000 for Exploration & Production

The data points are spread out over a large range of values which is in this case it's for Equipment & Services with Standard deviation of \$ 6,230,698,394

In conclusion ,Oil & Gas Equipment & Services did much better than Exploration & Production ,in Energy Sector
